# Why Rent

## Here are 12 sound reasons why YOU should rent your equipment . . .

**1. Maintenance.** Equipment rented on a day-to-day basis includes full maintenance. The user of such equipment needs no repair shop, no space, no spare parts supply, no mechanics, and no parts supply inventory or maintenance records for it.

**2. Breakdown.** Virtually all equipment is subject to occasional break down in use. When rented equipment breaks down it is immediately replaced by our own company at no cost to the user. Time losses on breakdown of owned equipment as well as the cost of repairs themselves must be considered.

**3. Warehousing.** Warehousing facilities are seldom needed for rental equipment. Some contractors operate successful construction businesses with little overhead other than cost of telephone answering service by having equipment rental yards service as their warehouse.

**4. Cost Control.** Cost Control is possible with rental equipment. Knowing the true costs of equipment owned is difficult. Rental equipment offers its user just one accountable cost figure - that shown on the rental invoice.

**5. Inventory Control.** Contractors in particular often find that they have less inventory loss due to pilferage when equipment is rented rather than owned. Although at first glance, this may seem strange, there is a logical reason for it. The presence of continuous billing on a rented item tends to establish accountability for that item. The contractor who owns a great deal of miscellaneous equipment has a difficult time establishing personal responsibility for any of it. Tools signed for at an equipment rental yard—tools which must ultimately be rented—seem somehow to be watched with sharper eyes.

**6. Disposal Costs.** It costs money to sell any type of used or obsolete equipment. Preparing the equipment for resale, advertising and selling time are cost factors of ownership that do not occur in renting.

**7. Obsolescence.** Faster and better equipment is constantly appearing, as manufacturers battle for a market keenly aware of rising wage costs. Ownership involves the risk of being handicapped with equipment that is slow and unwieldy compared with new models. On the other hand, RentALL keeps available the latest types of models of equipment.

**8. Correct Equipment for the Job.** Ownership often forces another kind of inefficiency through use of the wrong size or type of equipment for a given job, even though the equipment is not obsolete. This can also mean additional, though hidden costs. RentALL's equipment insures the correct equipment for the job.

**9. Minimum Equipment for the Job.** Equipment ownership becomes particularly onerous when such equipment must lie idle, as owned equipment often does from time to time. When ownership, say of basic equipment only is combined with rental as needed, idle time of equipment is minimized.

**10. Personal Property Taxes and Licenses.** There are no personal property taxes or license costs for the user of rented equipment. On owned equipment these are substantial costs, which must be added to the cost of owning rather than renting.

**11. Conservation of Capital.** Renting frees capital for other, potentially more profitable uses than that of being tied up in equipment.

**12. Increases Borrowing Capacity.** The equipment user who rents rather than buys generally finds borrowing easier because he has a better ratio of assets to liabilities, as the equipment does not appear as a liability on his balance sheet. This means that his normal line of bank credit is not disturbed. Contractors have found this most important in securing the bonds necessary for construction work.

I certify the above information is true and correct. I authorize Rental to check my credit history. I understand Rental's terms are "Net 30 days". I agree to pay 1.5% per month service charge on all past due accounts. If the account goes into default, it will automatically go into a Cash on Delivery status until brought current. In the event Rental must retain a collection agency or an attorney to enforce payment of this account, the undersigned agrees to pay reasonable attorney fees and collection costs. To induce the granting of credit to the above named applicant, the undersigned personally guarantees both the applicant's credit and compliance with all terms of the rental contract, signed or unsigned.

# Our Business Methods

## Store Hours

7:30 - 6:00 Monday - Friday

8:00 - 5:30 Saturday

Sunday - Seasonal

## What Constitutes a Rental Period?

**Minimum:** The shortest rental time period available for each rental item. This time period is item specific and may be hourly, multiple hour, 1/2 day, day, or weekly. Please consult with a sales representative for specific time requirements.

**24-Hour Charge:** Items may be kept out up to 24 hours. Metered items are allowed up to 8 hours usage within a 24 hour period. Excess usage will result in additional charges.

**Weekends:** **RENTALL** is open Saturday for your convenience. Qualified rental items picked up after 12:00 Noon on Fridays may be kept until 8:00 AM Monday for a **Weekend** rental charge. Rented items picked up prior to Noon Friday may be kept until 8:00 AM Monday for a **2 Day** charge. Metered items are allowed 8 hour usage for the **Weekend** rate and 16 hours for **2 Day** rate. Hour meter usage is enforced. Availability is always subject to Friday rental returns. Some **RENTALL** locations are open Sundays and special rate applications may apply. High Season and High Maintenance items are excluded from **Weekend** rental rates. Contact your local **RENTALL** store for specific details.

**Weekly Rental:** Items rented by the week may be kept for 7 consecutive days with 5 days useage. Metered items are allowed 40 hours usage within the 7 days. Excess hours will result in additional charges. Customer is responsible for required daily/weekly service maintenance.

**4-week (Monthly) Rental:** Items rented by the month may be kept for 28 consecutive days. Metered items are allowed 160 hours usage within the 28 days. Excess hours will result in additional charges. Customer is responsible for required daily/weekly/monthly service

# Our Business Methods

maintenance. Customer is responsible for oil and filter change when monthly usage exceeds 160 hours.

**Long Term and Special Need Rates:** Published rental rates are based on normal short-term equipment needs. Through advanced negotiation and guaranteed terms, we will gladly submit special quotes for special uses and long term needs.

**Fuel:** Customer is responsible for all fuel use. Fuel use will be charged for items not returned with the same fuel levels as when rented.

**Damage Waiver:** A damage waiver of ten percent (10%) of the total rental is added to all rentals. The damage waiver is not insurance; however, it covers the replacement cost of an item, less a deductible, (usually \$500.00) in the event a rented item is damaged due to circumstances beyond the renters control. A damage waiver is applied to all rentals unless a Certificate of Insurance is issued by your insurance company naming our firm as covered by your policy for any rental equipment damage, loss, or theft. Coverage must be in sufficient amount to fully cover items rented. Certificate must be in our possession prior to the abuse, neglect, or misuse; whether intentional or unintentional.

**Shifts:** All rates in this catalog are based on the equipment being used on a standard 8-hour-per-day shift, 40 hours-per-week, or 160 hours-per-4 weeks. Double or triple shift use will be charged accordingly.

**Delivery and Pickup:** We will deliver and set up anywhere. Rates vary according to location, weight, size, and type of equipment requested. Special quotes may include these services.

**We reserve the right** to change equipment brands and specifications.

**We reserve the right** to change prices throughout the calendar year on all equipment. The enclosed prices are a guide and not a firm quotation. Please call for current prices and guaranteed quotes.

**We add equipment weekly. If your needs are not listed, please call.**
